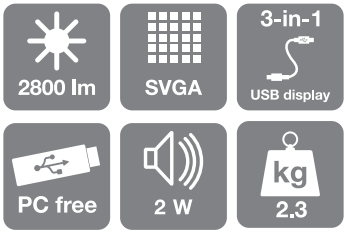
Epson **EB-S12** projector

DATASHEET



Make your business' budget go further with the Epson EB-S12 – the high-quality SVGA projector with a wide range of features and an affordable price tag.

This projector is straightforward to set up and use, allowing you to focus on delivering first-class business presentations. With high White and Colour Light Output of 2,800 lumens, you can present even in a bright room. Enjoy sharp picture quality with a contrast ratio of 3 000:1.

Aligning the picture is quick and easy with both automatic vertical keystone and manual horizontal keystone adjuster. The horizontal keystone slider is an innovative and intuitive new design feature from Epson, making it easy to adjust images to the correct shape when the projector is placed at an angle to the screen.

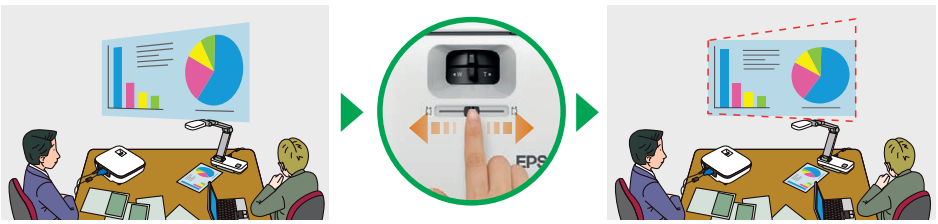
With Epson's 3-in-1 USB Display feature, one cable is all you need for picture, sound and page up/down control – it's the easiest way to display what's on your PC or Mac. Alternatively, the PC-free function lets you present still photos directly from a USB stick without powering up your computer. This means that you have less to carry between meetings and can focus on your presentation.

Capture the attention of your audience by plugging the optional Epson ELPDC06 USB Visualiser directly into the projector to give a close-up view of 3D objects.
The built-in 2W speaker ensures that audio is delivered with clarity.
The stylish and compact EB-S12 covers all your mobile needs.

KEY FEATURES

- Sharp picture quality thanks to 2,800 lumens and 3 000:1 contrast ratio
- Automatic vertical keystone correction and manual horizontal keystone correction adjuster for easy set-up
- PC-free: present still photos directly from USB storage devices
- 3-in-1 USB Display: one USB cable is all that's needed for picture, sound and page up/down control

Eliminate the need for photocopies: share 3D objects using the ELPDC06 visualiser



Horizontal Keystone Correction Adjuster: This intuitive new slider lets you adjust images to the correct shape when the projector is at an angle to the screen
